

Technologies: .Net, Angular, MongoDB

We are looking for a range of developers from mid to senior level

Full-time, Remote

.NET, Web and Windows Full Stack Developer

Would you like to further your career at an expanding software development company focused on the charity market? Are you a self-starter, focused on producing quality work with a thorough approach to design and testing, and strong analytical, problem solving skills?

This is a fantastic opportunity to take the lead and steer the development of our flagship product. As part of a small but growing team, you will enjoy a varied workload, offering the opportunity for a committed and ambitious individual to develop rapidly and be a part of the decision-making process.

The role includes working with a variety of different technologies, developing applications, testing existing solutions and helping to support our clients with their requirements.

Working in collaboration with, and reporting to, our lead developer and CEO. We work with charities all around the world developing solutions to enhance their systems.

Our team works remotely across the UK and US.

Requirements

Essential

- .NET (VB or C#) Web application development (Angular 2+)
- Cloud computing (AWS and/or Azure)
- Experience working with Mailchimp API or similar REST based APIs
- Degree in Computer Science or equivalent relevant qualification
- An awareness of systems design & integration

-
- A can-do person who can adapt to the numerous different tasks that come with working for a small organisation

Desired

- Blackbaud technologies
- Salesforce development
- T-SQL (SQL Server)
- MongoDB
- Octopus Deploy
- RabbitMQ

About Zeidman Development

Zeidman Development creates customised solutions for users of Blackbaud products. From the simplest macro to the more complicated add-on application, we enable optimised use of Raiser's Edge, Blackbaud CRM, Altru and other Blackbaud offerings, facilitating endless possibilities for the continual development of non-profits' process requirements and allowing them the freedom to manage their fundraising activities as they choose.
